## **Efforts Continue** For Development Of River System

VOLUME 64-

The Thousand Mile Miracle in Florida, could be the 230mile miracle in Florida and Alabama if and when the Choctawhatchee and Pea Rivers are fully developed.

The United States Engineers have been in the process of a full study on the two rivers for the past year and a half. President John Creel of the Choctawhatchee - Pea River Improvement Association along with Directors attended a meeting in Mobile with Col. R. W. Love of the U.S. Engineers recently. The group met with Col. Love and a general discussion of the project was held. Col. Love told the group that some three to four locks and dams will be needed if the project of the Choctawhatchee and the Pea rivers is complet-

The Engineers are at present waiting on a report from the National Park Service for the values and benefit of recreational facilities along the two rivers. The U.S. Fish and Wildlife Service is currently investigating fish and wildlife conservation in the river basin. The report of Abott, Merkt, and Company, Industrial Engineers of New York, under contract to the Florida Geological Survey has prepared an excellent report on forestry resources, mineral resources, and land Thomas, sons of Mr. Wileconomic statistics and poten- liam Thomas, and the late replied Mrs. English. Seibert were guests of the club. reading entitled "Home" was ing trees in every direction awaiting new development. J. Brogden of Andalusia. The

Finally, I saw so much that needs to be done for community development that I became more than ever convinced that Elba must find some way to employ someone who can spend at least two days a week in community promotion. If the job is to be done well, it will take more time than any business man can do if he is to keep his business going. If the job is to be effective, the man to do it must be either (1) trained in Chamber of Commerce Mr. and Mrs. Dee O. Divire of community promotion, or (2) a man with proved business Elba, serving aboard the amence and thoroughly familiar with community-wide phibious assault ship USS Box.

Bay and Sell Through Clipper Want Ads

In 1960, \$932,911.31 spent for new vehicles, operation and maintenance, kept things rolling for Co-op members. This helped make jobs and profits more secure for people in the automo-tive industry throughout Alabama . . . helping make us all "better off".

-REV. W. M. RAYBORN, PASTOR-

The Church is the greatest factor on She's frightened. She's seeing the world for the first time through dark glasses. earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, It's no wonder you and I are frightened. neither democracy nor civilization can survive. There are four sound reasons Ever since we were old enough to reason, we have been seeing the world through dark why every person should attend service regularly and support the Church. They glasses. It's just as Paul said: are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his "Now we see through a glass, darkly; but then face to face." community and nation. (4) For the sake of the Church itself, which needs his We spend our years wondering why things moral and material support. Plan to go happen as they do . . . why hatred flourishes to church regularly and read your Bibl and love withers . . . why sorrow seems inevitable and joy so rare. Apparently, we were not meant to understand . . . not here Some truths God has revealed to us; these | I Corinthians | 13 | James | 1 | Matthew | 19 | Ephesians | 6 | Psalms | 118 | Luke | 1 | Philippians | 3 | our Churches teach. Other truths God will not reveal until another day; to prepare us for that day our Churches strive. Until at length we gain that complete vision, we are happiest and strongest when we live faithfully in the truth already revealed. Even with dark glasses a man can see as long as he

THIS NEWSPAPER DOUBLE FEATURE FIVE GUNS TO TOMBSTONE Thrown into the gutter or a waste basket before it was 

read, did you? But waste baskets and gutters are constantly being filled with unopened, expensive direct advertising, sales ammunition shot into the air.

YOU NEVER SAW

A newspaper always commands an audience with prospective customers. It is never thrown aside without first being read from "kiver to kiver". Then it is borrowed by the neighbors.

That's why intelligent, attractive newspaper advertising is accepted as the most effective form of advertising your business.

An advertisement in this paper will reach over 75 per cent of the buyers in the local trade territory. We do the mailing and pay the postage.

duty and \$8.4 million from excise.

India has about 6,840 registered tea gardens with a total area of some 800,000 acres. Of this, 582,000 acres are in the eastern States of Assam and West Bengal, and nearly 177,000 acres in South India. This industry employes more than 1.2 million people, India's present annual production of tea is around 660 million pounds, of which about 450 million pounds are exported. It meets just over half of the world demand for the commodity. The entire output of tea in the world (excluding Russia and China) during 1958 was estimated at 1,654 million pounds. Of this India accounted for around 680 million pounds and exported 440 million pounds. The crop would have been larger but for the extremely dry weather during April, May and June, and the shortage of foreign exchange which restricted imports of ammonium sulphate. The total production of tea is expected to be on the order of 850 million pounds in

It helps the progress of such allied industries as coal, cement, steel, fertilizers, plywood, etc. For example, about 5,300,000 tea chests are at present made from plywood and only a negligible quantity is

# The Thrifty HOUSEWIFE KNOWS

## SHE PROFITS FROM ADVERTISING!

She Has Found From Experience that she fares Better When She Buys From Those Stores Which Advertise Regularly in Newspapers!

# The Wise MERCHANT

HE PROFITS FROM ADVERTISING!

No business has to advertise. An experienced ad man is the first to disagree with the oftrepeated statement that 'You have to advertise.' Because you don't. But the most successful merchants are those who advertise. Because they want to let their customers know about their latest values and they have no fear to let their competitors know the same as their customers.

There are definite rules how to use it and the first rule is to budget the advertising the same as to budget the rent, payroll, gas, lights and water. Regular advertising is the keynote. No longer is advertising for clearance sales only. Customers want to know about regular price line merchandise too.

And there must be some reason why there is more advertising done in newspapers than in any other media. In fact, there is as much advertising done in newspapers as in the next highest three media combined.

All advertising is good, some better than others!
